

ELEVATE EVERYTHING™

## MONOGRAM

### **Monogram® Hearth Oven Adds Sophisticated Flavor to Luxury Designs**

*Ventless, handcrafted appliance brings  
the performance of wood-fired brick ovens indoors*

**LOUISVILLE, Ky.— February 19, 2019—**Creating masterful roasted vegetables, delicate roasted fish and artisanal breads is now possible from the luxury of the home kitchen with the Monogram® Hearth Oven, a next-generation product that builds upon the legacy of the popular Monogram Pizza Oven. Handcrafted down to the last detail, this stunning appliance is the ideal centerpiece in fine kitchen designs—delivering restaurant-worthy results and a stunning, culinary experience for consumers.

“We have brought home one of the world’s most sought-after cooking methods—and we did it with style, refinement and complete sophistication,” said Ed Mammorella, Monogram commercial director. “The Monogram Hearth Oven successfully captures the performance of a wood-fired brick oven but delivers a consistent temperature with little effort for the at-home chef.”

Featuring intuitive LCD touch controls, preset cooking options for a variety of foods and perfectly placed heating zones on both the top and bottom of the oven, every aspect of the Hearth Oven was expressly designed to exceed even the highest expectations. For those who enjoy a browner crust, the bottom temperature can be set higher than the top or vice versa, providing a truly customized cooking experience that yields professional results.

Available in two striking styles, this indoor electric oven makes a bold statement with its dimensional design and lower vent system, or it can blend seamlessly into the lines of surrounding cabinetry for those who favor a subtle façade.

Other inspired features include:

- **Simple Installation.** Fits a standard 30-inch wide cabinet cutout and requires no additional ductwork or ventilation thanks to an integrated oven ventilation system.
- **Connected Capabilities.** WiFi-enabled for use with Amazon Alexa, the Google Assistant and Drop. Additionally, timers and mode changes can be made in an instant using the mobile app.
- **Handcrafted Luxury.** Each oven is carefully handcrafted by true masters of the industry.

The Monogram Hearth Oven is currently available in brushed stainless steel and will be available in additional finishes soon. It features 1.45 cubic feet of capacity and has an MSRP of \$12,200. Experience it during the Kitchen and Bath Industry Show in Booth C5819.
