

Introducing the GE reveal[®] LED bulb

Inspired design meets LED technology

Color-enhanced, full spectrum of light brings out more
VIBRANT COLORS

Makes reds appear redder and whites, whiter.
DOES NOT PRODUCE DULL YELLOW RAYS like regular bulbs

Ideal for enhancing décor & architectural accents in dining rooms, kitchens, bathrooms & living rooms

GE reveal[®] LED uses
80% **LESS ENERGY**
than traditional incandescent bulbs

Fits the same fixtures as an incandescent bulb

Available in 40- and 60-watt replacements for table & floor lamps and BR-30 indoor floodlights for track and recessed lighting
