

Indiana COVID-19 Relief

GRANTING
COVID-19
RELIEF
For Indiana

Duke Energy gives more than \$300,000 in COVID-19 response in Indiana

- \$100,000 in COVID-related grants to support hunger relief and social services
- \$200,000 to support small business

Supporting Food Insecurities, Duke Energy Small Business Support and Educational Initiatives

Duke Energy's initial \$100,000 COVID-19-related grants address immediate social service and hunger relief needs for all ages, children to seniors, across the 69 counties we serve.

Duke Energy awarded \$200,000 to economic development organizations across the state to provide relief services to Duke Energy small business customers for short-term operating costs, including legal or technical assistance and technology needs.

The Duke Energy Foundation also recently granted more than \$380,000 to support energy, engineering and environmental educational initiatives through its Powerful Communities: K-12 Education priority.

- Disbursed to 25 organizations
- Given the COVID-19 crisis, organizations are given flexibility to reallocate grant funds during pandemic

Additional Steps to Support Customers

- Not disconnecting service due to nonpayment
- Waiving late payment and returned payment fees

“ At Rose-Hulman, it's critical now more than ever to ensure we deliver a meaningful curriculum to continue to inspire and cultivate careers in STEM fields. Being able to shift our grant award from our in-school offering to an e-mentoring program allows us to stay on track with our mission. We're grateful to Duke Energy for their flexibility during these pressing times. ”

Jim Bertoli, Senior Major Gift Officer at Rose-Hulman Institute of Technology
