

CAFÉ AFFETTO Automatic Espresso Machine

Introducing CAFÉ's first fully automatic espresso machine. The perfect compact, one-touch solution for consumers who want to create custom cups of Espresso recipes – in less than 90 seconds. In keeping with the CAFÉ brand, this appliance not only delivers on taste, but also on premium design, adding style and sophistication to any countertop.

Loaded with Premium Features:

- **One Touch Solution:** Save time in the morning or during that mid-day slump, by pressing just one button for a perfect cup of Espresso, Americano, Ristretto or hot water for those who also enjoy the occasional cup of tea. CAFÉ AFFETTO also features a *My Cup* setting so users can customize their unique taste preferences.
- **Powerful Infusion:** With a high 20 bars of pressure and pre-infusion of the coffee beans, it extracts the most flavor for every cup.
- **Small Footprint:** Keep the clutter to a minimum while upping your coffee game on the countertop. The CAFÉ AFFETTO Automatic Espresso Machine has a compact footprint measuring only 7 inches wide (the same as an iPhone), leaving you more room for prep and entertaining space while offering conversation-worthy appeal!
- **Curated Finishes:** Available in three finishes, including matte white, matte black and steel silver, the Espresso Machine reflects consumer design preferences and complements existing CAFÉ collections.
- **Built-In Stainless-Steel Grinder:** Keep beans fresh with sealed bean storage that holds over 180 grams/6 ounces. From earthy to floral, with five precise settings, the bean grinder gives owners the flexibility to customize the perfect coffee grinds.
- **Steam Nozzle:** With the option of a steam nozzle, the Espresso Machine allows consumers to froth milk for their own handcrafted latte art or signature cappuccino with foam without ever stepping foot in a coffee shop.
- **Built-In WiFi:** Owners can control their unit and customize their favorite espresso recipes for morning routines or afternoon splurges all from the palm of the hand via the SmartHQ app.
- **Water Reservoir:** Conveniently stored in the body, the compact easy-to lift reservoir is removable and ergonomically designed.

Where to Buy:

The CAFÉ AFFETTO Automatic Espresso Machine will be available to purchase starting October 1 on cafeappliances.com for shipment in November. It will also roll-out to retailers nationwide in late October, including Best Buy, Williams-Sonoma and Crate & Barrel for \$729 MSRP.
